Violet(Zimeng) Ye

violet.zimengye@berkeley.edu | (510) 612-9623

EDUCATION

University of California, Berkeley | California, USA Aug 2025 - Present

- Major: Data Science & Environmental Economics and Policy; GPA: 3.894
- Relevant Coursework: CS 61A (Structure and Interpretation of Computer Programs), CS 61B (Data Structures), STAT 20 (Introduction to Probability and Statistics), MATH 53 (Multivariable Calculus), ECON 101A (Microeconomics - Quantitative), CS 198 (Introduction to Full-stack Web Development)

PROFESSIONAL EXPERIENCE

Business Analyst | Student Business Pioneer Program, Harvard College AUSCR Apr 2023 - Sept 2023

- Analyzed Harvard Business School case studies, focused on ESG topics. Awarded Outstanding Participant Honor.
- Collected data, built an AI inventory forecasting model for hotpot restaurant Haidilao, and authored research papers.

Data Analyst Intern | China-U.S. Green Fund Management Company Jul 2025 - Aug 2025

- Researched on green energy, with a focus on commercial solar energy and their investment implications.
- Collected and analyzed investment and performance data of green energy projects, synthesizing findings into ESG industry reports, translating empirical analysis into trend forecasts and investment insights.

AIGC Fullstack Engineer Intern | Tezign, atypica.ai Mar 2026 - Present

- Contributed to the development of Atypica.ai by designing and building a web-based platform for AI persona evaluation. Authored a framework paper on AI persona fidelity, proposing evaluation protocols for holdout prediction, counterfactual reasoning, and automated assessment reliability; validated the framework on 1,153 consumer cases.
- Developed Atpio.ai, a privacy-aware user research platform that transforms research objectives into embedded feedback experiences and automatically synthesizes user insights.

RESEARCH EXPERIENCE

Student Researcher | Independent Research on Math Modelling Dec 2023 - Dec 2024

- Researched the environmental and financial impacts of transitioning to electric bus fleets using mathematical models; Developed a 10-year blueprint to support sustainable decision-making.
- Conducted case simulations to evaluate emission reductions, air quality improvement, and cost-efficient transition strategies under varying policy and operational constraints.
- Published as first contributor in SCI journal *Smart Construction and Sustainable Cities*.

Research Assistant | University of California, Berkeley Apr 2026 - Present

- Built a Google Sheets-based UPC lookup and validation workflow with automated search links, source tracking, confidence flags, & manual review fields to streamline team-based nutrition data collection for 50K+ food products.
- Standardized entry protocols for 11 nutrition variables, improving consistency, reproducibility, and efficiency in product-level nutrition data validation.

Research Assistant | Rausser College of Natural Resources, UC Berkeley May 2026 - Present

- Designed the preliminary data strategy for a Ghana digital credit policy study, identifying key borrower-level variables, repayment measures, and credit risk characteristics.
- Supported the development of a research framework and leveraged partner datasets to examine credit access, borrower behavior, and the effectiveness of digital credit policy implementation.

PROJECTS & LEADERSHIP

Production Chair & Producer | T.I.n.Y Chinese Theater Group, UC Berkeley Sep 2025 - Present

- Coordinated production schedules, logistics, and cross-team communication.
- Managed behind-the-scenes production workflows to ensure timely execution of creative deliverables.

Founder | PackSmart, AI-based Outfit Planning Platform Mar 2026 - May 2026

- Developed a full-stack AI-powered travel wardrobe planning platform. Implemented user authentication, trip planning, wardrobe management, and weather-aware outfit recommendations with persistent data storage.

AWARDS

- American Invitational Mathematics Examination: 11 points, Qualified for USAMO
- High School Mathematical Contest in Modeling: Finalist Award (top 6%)
- National Economics Challenge: Team won the 1st Place in China, National Overall Gold Award

TECHNICAL SKILLS

- Programming: Python, C++, Java, R, JavaScript, SQL, html
- Research Tools: Matlab, SPSS, OriginLab, Excel
- Language: English, Mandarin, Japanese(Basic)
